Program

Comfort and savings under one roof

ASSESSMENTS

Our free home assessments can help you understand how to use energy and create a plan to start saving. Receive free and discounted energy-saving products including thermostats, high-efficiency showerheads, aerators, pipe insulation and more. You will also discover tips and recommendations to help you continue to save.

FREE PRODUCTS

You can receive free energy-saving kits with water and weatherization products, including high-efficiency showerheads, aerators, door sweeps and more, to start saving right away.

REBATES

Get cash rebates for the purchase and installation of eligible energy-efficient products and improvements, including furnaces, boilers, air sealing and insulation.

LOANS

We offer financing to help cover the cost of purchasing and installing energy-efficient equipment and improvements. You can easily make loan payments as part of your monthly Nicor Gas bill.

Efficiency solutions for every sector

ASSESSMENTS

We offer free energy assessments for your commercial property to help you understand your building's energy usage and identify energy-saving opportunities. You'll receive a customized report that includes all recommendations, along with potential costs and available rebates.

FREE PRODUCTS

Get free, professionally installed energy-saving products for your business and multi-family properties. Products like faucet aerators, pre-rinse spray valves, hot water pipe insulation and more can help you start saving energy right away.

REBATES

We offer cash rebates for your energy efficiency investments. When you purchase and install qualified high-efficiency equipment, you can receive up to \$7,500 back.

LOANS

Commercial customers who install qualifying energy efficiency projects, that are not eligible for rebates through our other offerings, can receive custom rebates. Contact us before you get started.
